Attention Bodybuilders: Here's how to gain muscle, without your "thing" falling out for everyone to see. (<-- erm, what did he just say now?)

We're talking about your phone, of course. Our best-selling Duo Shorts don't just safely hold and conceal your phone while you're lifting, squatting or just chillin... they also:

--> Give your legs some breathing space, with a built-in mesh liner that evaporates and dries sweat quickly for your comfort and protection.

--> Help you avoid embarrassing rips when you're mid clean, snatch or pull (lol) thanks to its' highly stretchable fabric

--> It will even hold your sweat towel around the back!

Featured in GNC, Planet Fitness, Inside Fitness and more, our Duo Shorts are the #1 choice for weightlifters and strength trainers who want comfort, convenience and style at home or in the gym.

Typically not available in stores.
