

Do you work in engineering, mining or manufacturing?

Would you like to earn more money, improve your career prospects or simply safeguard your current job?

If you're like most of our students, you're serious about working hard and investing in yourself to learn skills that pay the bills...

... so you can enjoy a brighter future for you and your loved ones.

With a high quality, nationally accredited qualification and skill set under your belt, you could be earning more and advancing your career sooner than you think.

Thanks to our established partnerships with Custom Fluid Power and SMC Corporation (Australia) Pty Ltd, we offer a complete solution to all your needs in:

- Engineering training
- Hydraulics training
- Poly welding training
- Pneumatics training

Unlike other training institutes, we offer:

- RPL (Recognition of Prior Learning) and training
- Onsite training on machines at your existing workplace, under your employer's policies and procedures (no need to meet on campus or go to classrooms)
- Nationally accredited Cert 4 Diploma or Advanced Diploma of Engineering certificates, plus additional complementary business qualifications
- 20 years of experience delivering unrivalled industry knowledge, helping you become formally recognised within your industry, nationally or globally.
- Courses run by real engineers turned teachers (need to review)
- Government funding

Ready to upskill and ignite your earning power?
