Running a small business by yourself can be scary — especially when you're facing new challenges and tough decisions.

Finding trustworthy and confidential help isn't easy, so you end up doing all the work yourself, becoming a slave to your business with an unhealthy work/life balance.

When I started my own business, I used to put everything on my own shoulders, desperately trying to figure it out alone.

This was partly pride, partly stubbornness. Eventually, I decided enough was enough. I needed support. Intervention. I needed answers, from people I could trust, and in complete confidentiality.

Chances are, you're in a similar situation...

There's a problem.

But nobody is really holding you accountable for fixing it.

Friends and family want you to succeed and be happy...

... but they probably aren't holding you accountable for specific problems, or have the solutions you need.

So, who do you turn to?

Well, along with a small group of fellow dentists...

... we ARE going to hold you accountable.

And we WILL have the solutions you need.

Together, we're going to help each other earn more while working less.

How?

Inside a very limited, private MasterMind program I'm running in 2020, with the next session coming soon.

To qualify, you must have a turnover of at least \$1mill.

If you make it in, you'll benefit from:

- Cutting edge marketing and business strategies, systems and processes from Australia and the US
- The power of collaboration of a small group of elite non-competing Australian dentists sharing what's working and what's not, so all your energies are focused in the right direction
- Never worrying about making big decisions alone.
- Getting perfect clarity on key issues, big or small.
- Leaning on other great minds and getting ahead of the competition
- Getting confidential advice, without exposing your business to prying eyes
- Executing meaningful strategies, plans and goals, with monthly support and real people holding you accountable for your actions
- "In the trenches" insights, secrets and shortcuts that you won't find in books, Google, or blog posts

And perhaps best of all, you'll be able to grow and run a business that doesn't run you... and get back more precious time to spend where it matters most.

To find out more about this invite-only MasterMind, visit <https://www.anguspryor.com/mastermind/>

Spaces are very limited and the next session is coming soon, so if you're interested, don't put this off until later!
